

ETHIOPIA

NENSEBO WASHING STATION, SIDAMO GRADE 2, MAX. 6 DEF., ORGANIC, SCA 85+, WASHED

The Nensebo Washing Station is located in Ethiopia's West Arsi Zone and sources coffee cherries from the highlands around Habera Hada, at an altitude of 1,900–2,300 meters. Rich red soils and young coffee plants growing on gentle slopes give this coffee from the Sidamo region great potential in the cup, supported by the clean water of the nearby Limowa stream.

The ripe cherries are hand-picked, sorted by density, and then pulped. They are subsequently soaked for approximately 60 hours to remove the remaining fruit before being dried on raised drying beds. The washed process results in a clean cup with a lighter body.

Tega & Tula invests 5% of its annual revenue in community projects and uses water-saving, solar-powered methods in its processing.

Flavour	8	

EXCLUSIVES

QUALITY

Country Ethiopia
Region Nensebo
Washing Station Nensebo Washing Station
Ref. No. P11883
Coffee Type Arabica
Quality Sidamo Grade 2
Crop 2026
Harvest Time November - February
Harvest Method Picking
Altitude 2100 m
Variety Heirloom
Certification Organic
Processing Washed
Soil Type Red clay soil
Packaging Type 60,00 KG/Bag Grain Pro

GREEN GRADING

Moisture 11,30%
Odor clean
Color green
Defects 0-5 Defects
Screen Size 14+

CUPPING SCORE

84,25 (TSP Q-Arabica Grader)
