

# UGANDA

## GORILLA DRUGAR+, SCREEN 17+, SL14, SL28 & L11

We source our Uganda Gorilla Drugar through Touton Uganda, based in the Kasese district, nestled at the foot of the majestic Rwenzori Mountains. This region is uniquely positioned between the Rwenzori National Park, Kibale National Park, and Queen Elizabeth National Park, benefiting from a rich and diverse natural environment. Touton Uganda plays a vital role in supporting coffee-growing households by improving productivity, profitability, and overall livelihoods. Since launching its Rainforest Alliance project in 2020, Touton Uganda has certified 3,229 farmers across five regions, situated at elevations between 1,200 and 1,800 meters. Together, these farmers produce 1,000 metric tons of Drugar over two annual harvests. This coffee is exclusively sourced from the region's main crop, ensuring consistency and quality.
