

UGANDA

NGOMA, ROBUSTA, SCR. 18, THP

Uganda is one of the world's largest Robusta producers. The combination of favourable altitude and microclimate ensure ideal growing conditions. Our Robusta Ngoma is grown in the Wakiso District near the Victoria lake. The main harvest takes place from October until March, whereas the so-called "fly crop" is from April until September. Local farmers harvest the ripe, red robusta cherries by hand, which are later dried in the sun.
